

# MARINE CORPS RESERVE CENTER & VEHICLE MAINTENANCE FACILITY

NAVFAC SOUTHEAST | JACKSONVILLE, FLORIDA

## PROJECT HIGHLIGHTS

- Design-build 33,096 SF concrete tilt-up administrative/drill hall and training facility containing simulator room, classrooms and computer rooms
- 7,640 SF pre-engineered vehicle maintenance building in Jacksonville, Florida
- Incorporated LEED Design principles and DOD anti-terrorism / force protection

*"From the design process through occupancy, this efficiently managed project was a great reflection of Haskell's professional capabilities. Of special note was the exemplary manner in which your field personnel minimized change orders and provided timely and accurate information during meetings and negotiations. S.W. Wiles, CMDR CEC US Navy NAS Mayport*
