

SWOS APPLIED EDUCATION BUILDING PORTSMOUTH NAVAL SHIPYARD

U.S. NAVY | NEW PORT, RHODE ISLAND

PROJECT HIGHLIGHTS

- 73,000 SF design-build multi-story training facility featuring state-of-the-art technology
- Classrooms, bridge and combat information center (CIC) simulators, tactical trainers
- Entrance lobby, cafeteria, department staff offices, instructor bay, administration offices, and staff/student lounges
- Glass skywalk from the second deck.
- Interior design and office furnishings
- Sound attenuation; fire protection; sitework; utilities; parking
- LEED design standards; 99 DOD standards for anti-terrorism/force protection requirements; fire protection; EM-385 Safety Standards.

“The most notable feature of the project is the glass and steel pedestrian walkway, connecting the second deck to the back of Arleigh Burke Hall. The functionality of the building was well-planned, and the most current anti-terrorism features were incorporated into the design. . . As the contracting officer for this project, I must say it was an exceptionally enjoyable experience to work with true professionals at every level.”

Robert Kruzewski
Contracting Officer
Newport, Rhode Island
